

## Disposable Needle Assembly (DNA) AVID2004

The AVID DNA is a sterile Disposable Needle Assembly. The sterile AVID Chip is held in position at the bevel of the needle. The AVID DNA system is ideal for field and clinical use. The microchip I.D. number is printed on four peel and stick labels for recording convenience.

The AVID2004 DNA needle assembly is designed for use with the AVID3003 pistol only.

The AVID3003 is designed for multiple use and is made of a high impact plastic.

## Single Use Disposable Syringe (SUDS) AVID2008

The AVID SUDS is a sterile Single Use Disposable Syringe. The sterile AVID Chip is held in position at the bevel of the needle. The AVID SUDS system is ideal for field and clinical use. The microchip I.D. number is printed on four peel and stick labels for recording convenience.
